Voluntary Labelling Scheme for Digital Terrestrial Television Receivers The Register

Important Notices about the Scheme and the Register

The Voluntary Labelling Scheme for Digital Terrestrial Television (“DTT”) Receivers (“the Scheme”) is aimed at providing some guides for consumers shopping for DTT receivers. The Scheme applies to manufacturers and dealers of DTT receivers who have participated in the Scheme on a voluntary basis (collectively referred to as “Suppliers” hereafter).

The register contains models of DTT receivers on which the Suppliers use the Labels. The information contained in the register is provided by the Suppliers and is for reference only.

By granting Suppliers the licence to use the Labels and by publishing the register, no warranty or guarantee, express or implied, is given from the Government of HKSAR, the Telecommunications Authority and the Office of the Telecommunications Authority (“OFTA”) as to the accuracy of the information about the DTT receivers or as to the compliance of the DTT receivers with the relevant standards.

While OFTA may conduct random tests on the DTT receivers, the tests are limited to certain features. For the list of items that may be tested, please refer to OFTA's website (www.ofta.gov.hk). The Government of HKSAR, the Telecommunications Authority and OFTA makes no representations, warranties or endorsements whatsoever about the suitability of the receivers in the list for individual uses/applications, safety of products, fitness for purposes and merchantable quality.

The Government of HKSAR, the Telecommunications Authority and OFTA shall not be liable for any direct, indirect, special or consequential losses or damages arising in contract, tort or otherwise from the use of or inability to use the register or any information contained in it, or from any action or decision taken as a result of using the register or any information contained in it.

Participation in the Scheme is on an entirely voluntary basis. Where a product does not bear a Label or is not listed in this register, it does not mean that the product does not satisfy with the relevant standards or that the product is not capable of receiving standard-definition television and/or high-definition television programmes.

The register contains hyperlinks to websites or webpages of third parties. The content on those websites or webpages has been compiled and issued by those parties.
